EDUCATION

University of Toronto St. George Campus

Expected Graduation: June 2025

- Bachelor of Science in Computer Science, Statistics and Economics
- **Relevant Coursework:** Software Design, Web Development, Databases, Data Structures, Algorithms, System Programming, Machine Learning, Statistical Theory, Data Analysis, Time Series Analysis, Computational Statistics, Econometrics, Linear Algebra, Micro/Macro Economics, Financial Economics

Machine Learning Specialization | Certificate in Machine Learning

Coursera

- Developed knowledge in **prediction, classification, and unsupervised learning** using techniques such as **regression models and artificial neural networks**. Applied **NumPy, Pandas, and scikit-learn** to build and optimize ML models.

TECHNICAL SKILLS AND INTERESTS

Languages : Python, C, C#, Java, Kotlin, SQL (PostgreSQL), R, JavaScript, TypeScript, CSS, HTML, Bash, Assembly

Frameworks and Libraries : React, React Native, Next.js, Vue.js, D3.js Tailwind CSS, Flask, Django, ASP.Net Core, REST API, Bootstrap, NumPy, Pandas, Tensorflow, Scikit-learn

DevOps and Tools : Git, Docker, AWS EC2, Linux/Unix, Firebase, SupaBase, Heroku, Netlify, Excel, LaTeX

Interests : Mathematics, Machine Learning, Piano, Muay Thai, Hiking, Fishing, League of Legends

EMPLOYMENT HISTORY

Lead Full Stack Developer | Delta Upsilon Toronto Chapter

May 2025 – Now

- **Led end-to-end development and deployment** of the DU Toronto Chapter's official website, **mentoring 2 junior developers** and collaborating with a **UI/UX designer** to deliver a modern, branded platform.
- Architected a **scalable Next.js 14 app** with serverless App Router endpoints, improving page load performance and reducing landing pages **bounce rate by 22%**.
- Integrated Google Analytics and SEO best practices, boosting discoverability and **driving 400 new users** in the first month across university and alumni networks.
- *Live Demo:* [Chapter Site Showcase](#)

Full Stack Web Developer | Colossal Carriers

Mar 2025 – June 2025

- Worked directly with stakeholders and Engineered a **high-performance, responsive single-page application** to showcase freight services, resulting in a **32% increase in service inquiries** and **significantly improving user engagement**.
- Built a fully integrated hiring portal for company drivers and owner-operators, enabling efficient applicant screening and **reducing vehicle idle time by 27%**.
- Developed a **lightweight backend system** paired with **admin panel** for managing driver applications and contact form submissions, streamlining internal workflows.

Frontend Web Developer | OceanWave Ltd

Sept 2024 – Jan 2025

- Engineered a **responsive React/TypeScript marketing site** that **increased online inquiries by 17%**, boosting lead generation for yacht management services.
- Translated client specifications into interactive UI components, **improving turnaround time by 25%**.
- Set up CI/CD with Netlify for zero-downtime deployments and rapid iteration, **reducing development cycle time by 40%**.

PROJECTS

Duo Date (In Development) | React Native, Typescript, Expo, PostgresSql, SupaBase

Feb 2025 – Now

- Conceptualized and Spearheaded a cross-platform dating app for group experiences, **collected and analyzed 50+ user survey responses** to inform MVP design.
- Integrated **Supabase** for authentication and database management, and Stream Chat API for real-time messaging—**accelerated MVP delivery by 50 hours** and enabled seamless user communication.

Real Talk | React, Next.js, Typescript, TailwindCSS, Google Analytics, OpenAI

Feb 2025 – Now

- Built a conversation-starter generator web app **used by over 200 users in the first month**.
- Integrated **Google Analytics** to track user interaction, improving UI flows based on real-time usage patterns.
- *Live Demo:* [Conversation generator showcase](#)

Pet adoption site | JavaScript, Django, React

Dec 2023

- Developed a full-stack pet adoption platform with **15+ pages** using **React** and **Django REST Framework**.
- Deployed frontend and backend on **Netlify and Heroku** respectively; established **CI/CD pipeline** to enable rapid releases.
- Collaborated with **3 developers** using Agile sprints, reducing feature implementation time by **30%**.
- *Live Demo:* [Pet Adoption Site Showcase](#)

LANGUAGES

Fluent in English and Mandarin
